

QUESTIONS AND ANSWERS - PARK MASTER PLAN RFQ  
November 2, 2009

**Q.** *Please clarify the two following tasks from Attachment A.1 – Scope of Services. Are consultant names available for park projects below?*

4. Tasks

f. Coordinate with other consultants. The following parks are anticipated to be in a process of redesign by a separate consultant(s) during the first few months of the Master Plan process:

1. Horton Plaza Park
2. Children's Park
3. Gaslamp Square Park
4. Interim Leash-free Dog Park

g. Collaborate with other agencies, based on the Needs Assessment, on programming potentials for the following public spaces that are under other agencies' control:

1. County Administration Center Waterfront Parks
2. Ruocco Park (Old Harbor Seafood Mart Site)
3. Embarcadero Marina Park North and South

A. To be determined during scope negotiations. Please remember that the most important thing to present is your qualifications related to developing park master plans. The consultants that we are in negotiations with for Children's and Gaslamp park are Schmidt Design Group and Estrada Land Planning.

**Q.** *Attachment C.7 – Subconsultant and Vendor List: Since this is an RFQ and not an RFP with fees, are submitters required to list the dollar amount for subs when no total fees are required? On other City submittals we have only listed the percentage, of which would be allocated in the future for each of the subs. Would this be an acceptable way to respond on this Vendor List form?*

A. Yes, listing a percentage is acceptable. You may also state TBD.
